

GORILLA HYDRAULIC BRAKE

SEVERE DUTY & MEDIUM DUTY

PADS | ROTORS | CALIPERS

BY **MAT HD**

New hydraulic calipers & rotors are manufactured to the OEM specification. Paired with Gorilla pads maintenance costs are reduced and uptime is extended.

Gorilla hydraulic calipers are the perfect solution for fleets to reduce maintenance costs while maintaining the quality and performance of their hydraulic brake system.

All Gorilla calipers are manufactured to the highest quality standards, returning each caliper to OEM specifications.

Calipers are torqued to OEM specifications then bench tested and date stamped to ensure functionality, alignment and traceability.

As leaders of selection, experience and our commitment to excellence, Gorilla is your superior choice supplier, stopping your customers in their tracks. Our hydraulic “all makes” caliper, rotor and disc pad training experience is unmatched in the industry. We stand behind everything we do.

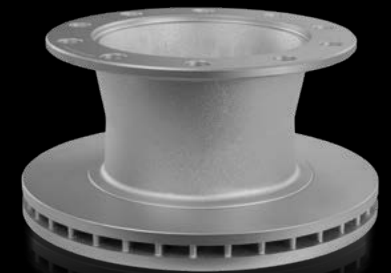

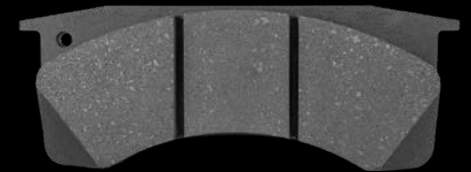

GORILLA SEVERE DUTY & MEDIUM DUTY HYDRAULIC BRAKE PADS, CALIPERS & ROTORS

Pads are manufactured using world class technology. The development and validation process employ OEM specifications.

Gorilla hydraulic pads are designed for the stopping power needs of severe duty and medium duty applications. The pads offer low wear characteristics extending life and reducing maintenance costs.

EXCEPTIONAL VALUE AND QUALITY

- Pads meet SAE J2975 CA/WA copper regulations
- Slots and chamfers follow OEM specification to ensure performance
- Hardware meets OEM specifications
- Pads are FMVSS135 compliant
