

The Best Repair You'll Never See

- Cuts repair costs by as much as 90%
- Simple peel & stick system eliminates rivets or fasteners of any kind
- Repair is waterproof and airtight
- Cuts with scissors
- No special skills required

Before Repair

After VanFastic™ Repair

Repairs A Wide Variety of Surfaces

- Aluminum van type trailers or truck van type bodies
- FRP or composite panels
- Refrigerated trailers
- Aluminum & translucent roof repairs
- Steel & composite containers
- Soft side or curtain side trailers

VanFastic™

ALUMINUM Repairs trailer panels and roofs.

WHITE

NATURAL

GRAY

TRANSLUCENT

FLEXAN™ (Polycarbonate)

Repairs roof light panels.

B Lock™

PATENTED rust prevention technology
GUARANTEED to prevent "Rust Jacking"
PROVEN to reduce noise and vibration

GET THE FULL LIFE OUT OF YOUR FleetLine™ BRAKE LINING WITH B-LOCK™

B-Lock™ is a patented rust-preventative technology that eliminates any possibility of early deterioration of the brake shoe table and is applied to the brake shoe table in an adhesive tape form before the shoe is lined. Once the lining is riveted to the B-Lock™ core, a cold bond is formed between the table of the shoe and the lining.

HOW IS B-LOCK™ CURED?

B-Lock™ forms an epoxy bond and a barrier between the shoe table and the lining with the initial application of the brakes. This eliminates the gap between the two, which prevents elements such as moisture and salt from getting in between the table and lining.

HOW DOES B-LOCK™ SECURE THE LINING?

B-Lock™ along with the riveting of the lining provides total and complete lining security and insures that the integrity of the friction is maintained. B-Lock™ has proven to work well where braking demands are severe and stress on friction is at the greatest. In such applications, it is not uncommon for lining to react to the stress with cracking in the surface. Because B-Lock™ secures the entire friction area, such cracks will not impair the performance or durability of the lining.

CAN B-LOCK™ REDUCE NOISE?

B-Lock™ has been proven to reduce brake noise and vibration especially in industrial applications. This benefit is a result of the bond between the lining and the table.

IS B-LOCK™ GUARANTEED?

FleetLine™ brake products guarantees our new brake shoes using FleetLine™ steel and B-Lock™ against "Rust Jacking" for the life of the original FleetLine™ lining.
